

I saw the wares lady
you wrote about Adam
I think when first he saw them
Lady would to know
I think that you dear Lady
such a story could write
and that at his expense
could show your grace bright

I think that you defied him
to each you in a lie
I think just like you about it
it is well I wish to try
all I could say in his respect
I should try to reach you
that you lie so fast
the devil could not reach you

I think you said Adam
was elected by a lie
and if he did not get the office
you thought he would cry
you said too his friends
distill their lies so summer
about that they had better care

I think he ^{was} elected him
was told long ago
when the people was deceived
by the Lattin Amas Lord

mis turned the people all against him
and all his Lona glory clan
and the voters were determined
to oust them to a man

Now wished to give the people
into silence about their dime
that has been taken from the Treasury
at several different times

We all have paid heavy taxes
and very sore we feel it
I say tell me where the money goes
if Amas did not steal it

I expect when you see this time
you will cravort
But I am not a friend of Amas
for anything of the sort

I have talked about that money
County officers to damn
and I would like to see the one
that would dare to kick any damn
